

**LITTLE WONDER EDGER MODEL ( PLEASE CHECK WITH US THE MODEL AVAILABLE IN STOCK ON THE DATE OF YOUR ENQUIRY)**

<b>S.NO.</b>	<b><u>FEATURE</u></b>
<b>1</b>	Available with a 550 Series Briggs and Stratton engine, a more durable and cooler running engine with dual element air filter. Also available with a BX120 Honda engine featuring better fuel economy and rated for up to 2000 hours.
<b>2</b>	Cast Iron Cutter Head offers durability and easy maintenance. Shielded, 1 9/16" bearings makes for a more durable and cooler running cutter head. Largest available on the market.
<b>3</b>	10" steel blade is sharpened on all four sides. Gives you the ability to flip the blade over and extends time between sharpening. Blade guard is 30% heavier to extend life.
<b>4</b>	Adjust cutting depth up to 3", adjust tension, and start and stop the blade all from the operator's position.
<b>5</b>	Two belts provide extra power to the blade and reduces slippage during application. Shielding keeps debris off the belt and provides extra safety.
<b>6</b>	Painted Handles and Anti-Vibration Grip increases user comfort and eye appeal.
<b>7</b>	Four Wheel Design provides extra stability and eliminates the need for a curb wheel. All wheels have steel hubs with ball bearings and full axles front and rear for smoother and easier maneuverability.
<b>8</b>	Large gas tank size reduces refueling intervals.
<b>9</b>	Mud flaps help prevent debris from kicking back at the operator.
<b>10</b>	Edges up to 90 feet per minute. Get the job done quickly and more efficiently!
